....

Hi Adam,

Here are my comments. Let me know if you have questions about any of them. Thanks for letting me review the pre-PN version.

Lisa

Lisa,

The Fact Sheet for the Boulder Hot Springs permit renewal is out for DEQ internal review this week, and I've attached a copy for your review prior to public notice. I don't think there is anything too controversial, but it does contain nutrient and TMDL aspects that you will likely want to review. Please call or email at any time with questions or comments, or we can schedule a meeting if you prefer. Thanks for your time!

Adam McMahon
